

## ADAPT SOFT

LOUNGE

The new Adapt Soft brings a more relaxed aesthetic combined with a residential level of comfort. The non-fixed cushions are made from a foam/feather composite paired with a quilted feather overlay to the seat. The clean lines and subtle surfaces of Adapt bring a softness and sense of the familiar into the workspace. Designed to sit alone or combine in module configurations - arms, backs, desks and tables can be added simply and easily. Adapt Soft is available in the full range of low-back lounge configurations, when that extra level of comfort and luxury is required.

Adapt Soft Lounges are made in Melbourne and fully GECA certified - FFG-200026. Under GECA, products are certified against environmental performance criteria across its life cycle to ensure they deliver better environmental outcomes.
