

## POLAR

WALL LIGHT

A circular motif is used throughout the Polar collection defining its minimal operative form. The Polar Wall Light utilises a unique hinge joint allowing the disc to pivot up or down, softly directing the light output. Polar’s anodised gold wall canopy provides a beautiful base for the light to mount onto the wall and houses the fully dimmable LED module.

The wall light is available in a pivot or fixed variation. The disk is available in two sizes and various painted finish options.
