

ROSS GARDAM

CATALOGUE / 2026

Experiential Objects that Elicit Joy & Defy Convention.

All Ross Gardam® products are driven by a distinct desire to defy the conventions of our relationship with and connection to contemporary design.

Designed for public and private spaces, every product is informed by a deep fascination in the layered experiences that exist between object, space and self. This experiential understanding combined with a distinct approach on form and function underpins each collection.

Ross Gardam® products are handcrafted in Melbourne by Australian makers and manufacturers with an exceptional level of finish and expertise. The studio's methodology combines innovative technology with traditional craft, resulting in products imbued with subtle historical and ritualistic references. This closeness to the maker and understanding of material is central to the obsessive process of development involved in every Ross Gardam® product.

PROCESS 01

Ross Gardam® products are designed to endure, each product being the output of our high calibre, responsible Australian manufacturing process.

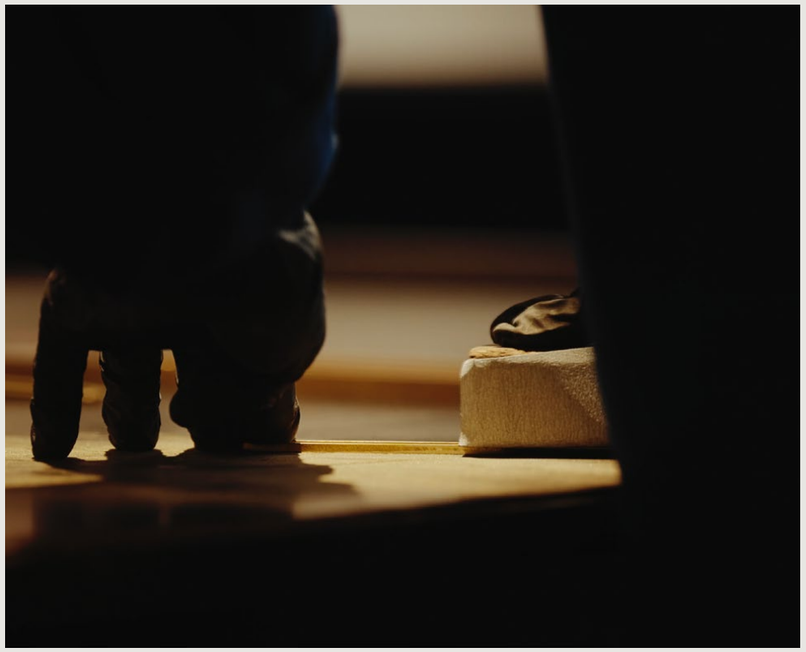

To maintain this, high quality standards apply to everything we do, from concept development and design, material selection and manufacturing through to packaging and ongoing support.

Each of our lighting pieces and furniture collections is crafted using locally sourced materials and assembled in Melbourne. Our lighting products are meticulously wired, assembled and packaged in our Melbourne-based workshop with the utmost care, while incorporating current energy-efficient technologies. Our upholstered products carry GECA certification.

Our approach to material selection informs every aspect of our design and manufacturing process, and remains central to the quality, longevity and performance of every product we create.

LIGHTING 02

BULLION WALL LIGHT

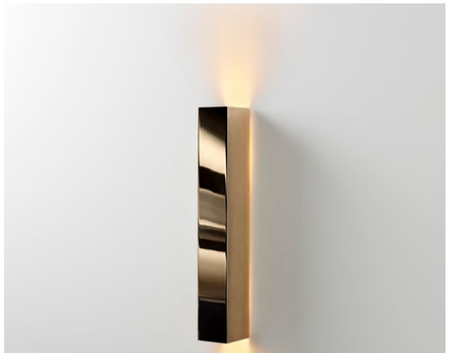

The Bullion luminaire is defined by a rough sand cast body contrasted by a highly reflective mirror-polished face. The interplay between the two surfaces creates a considered duality, where light and reflection coexist in a singular architectural form.

The reflective face introduces an element of intrigue, capturing and distorting its surroundings while concealing the source of illumination. Light is revealed indirectly, casting a soft upward and downward glow, while creating a subtle halo effect around the entire fixture.

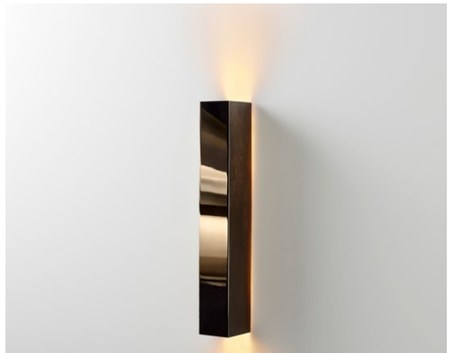

IMAGE /

MIDDLE LEFT/RIGHT - BULLION IN NATURAL BRONZE / DARKENED BRONZE
BOTTOM LEFT - BULLION IN BLACKENED BRONZE

LIMINAL LINEAR PENDANT

Liminal exists in the threshold between object and space. Its floating silhouette is suspended by a trio of central support rods, creating a carefully balanced composition unique to the piece. Intentionally restrained in expression, Liminal draws focus to the refined detailing and precise finishing of its brass or aluminium elements.

Offering independently switched uplight and downlight illumination, Liminal allows for layered atmospheric control within a single fixture. A modular lap joint detail defines the fixture's side profile, reinforcing its architectural character. Available in five lengths and eleven standard finishes, Liminal adapts seamlessly across a range of architectural environments while maintaining its quiet, immersive presence.

IMAGE /

BOTTOM / LIMINAL 2230 IN HAND RUBBED AGED BRASS
FAR RIGHT / LIMINAL IN HAND RUBBED ALUMINIUM

SOLACE PENDANT LIGHT

Solace is a luminous glass tear that transforms with movement, revealing two distinct identities in light and form. Through the exploration of geometric form, the interplay of two perpendicular, intersecting circles serve as the foundation for this intricate composition.

Each glass shade is crafted in Australia and hand assembled in our Melbourne based studio. This sculptural pendant is available in with a chain hanging in various formats and a selection of mouth blown glass finishes combined with a highly refined brass body in natural hand-rubbed brass, bronze or blackened brass.

IMAGE /

BOTTOM RIGHT / SOLACE DOUBLE CHAIN PENDANT WITH SINGLE LOOP - WHITE GLASS AND BRUSHED BRONZED BRASS

SOLACE TABLE LAMP

Visually enchanting, Solace emerges from a series of experiments that use innovative engineering and push the boundaries of traditional glassblowing techniques. Through the blowing process, each complex shape develops a distinct, subtly textured glass surface, making every light truly one of a kind.

Each glass shade is crafted in Australia and hand assembled in our Melbourne based studio. This sculptural table lamp is available in a selection of mouth blown glass finishes combined with a highly refined brass body in natural hand-rubbed brass, bronze or blackened brass.

AERIS CHANDELIER

Inspired by the ethereal beauty of clouds, Aeris embodies softness and lightness through the repetition of sculptural forms, crafting an ethereal centerpiece. Each mouth blown glass cloud is paired with architecturally crafted brass bars that cross and lightly kiss together, evoking a sense of weightlessness—as if suspended in air.

The duality of the brass structural element defines each piece, with dual vertical drops playfully interacting with horizontal crossings, creating a unity to the entire fixture.

AERIS LINEAR CHANDELIER

Available in four distinctive tones, each Aeris variation transforms the fixture’s presence in a unique way: a soft white glow, the warmth of the morning sun, the subtle shimmer of a silver lining. Every cloud carries its own delicate texture, formed naturally in the glassblowing process, diffusing light into a gentle, ambient glow.

Handcrafted in Australia, each piece is meticulously assembled in our Melbourne-based studio. Available in a range of glass finishes, Aeris is paired with a choice of natural hand-rubbed brass, bronze, or blackened brass framing.

VOLANT WALL LIGHT

Volant features solid brass bars, paired with textured, tubular formed-glass elements, creating a statement luminaire. This delicate light creates an equilibrium between the different materials and offers a beautifully soft level of luminosity.

Volant's modular and architectural nature allow the fixture to span across a plethora of interior spaces. The solid brass bars are individually machined with the luminaire defined by a white glass diffuser which is pinned in-place to the solid brass bar. Textured tubular glass elements are balanced on the same pins creating a uniquely formed illumination.

Each of the glass elements and brass components are made in Australia and hand assembled in our Melbourne based studio. The Volant Wall Light is available in a selection of glass finishes combined with natural hand rubbed brass, bronze, and blackened brass with a waxed finish.

VOLANT CHANDELIER

Volant is a modern chandelier that’s almost akin to a kinetic sculpture. A static lamp with an uncanny ability to appear in motion. Solid brass bars are home to textured, tubular formed-glass elements, angled to give the impression of floating objects revolving around each other. The result is an elegant equilibrium that’s at once enthralling yet soothing.

Volant’s modular and architectural nature allow the fixture to span across a plethora of interior spaces. The solid brass bars are individually machined with the luminaire defined by a white glass diffuser which is pinned in-place to the solid brass bar. Textured tubular glass elements are balanced on the same pins creating a uniquely formed illumination.

Each glass element and brass components are made in Australia and hand assembled in our Melbourne based studio. This sculptural luminaire is available in a selection of glass finishes combined with natural hand rubbed brass, bronze, and blackened brass with a waxed finish.

The Volant Chandelier is available in six configurations.

MÉNE PENDANT

Méne celebrates our sense of awe with the celestial. The objects appear like a lunar apparition, delicately floating in mid-air. Crafted with mouth blown glass, the collection reveals the individual and unique texture of subtly illuminated glass. Méne's rippled form is the result of the studio's continual experimentations with traditional optic glass blowing techniques and innovative engineering. The result is a one of a kind glass texture within every luminaire produced.

The Méne Pendant is available in three finishes.

ARBOUR LINEAR PENDANT

A continual timber solid, formed to unite space and celebrate the beauty of the natural. Arbour is a linear timber light which creates the perfect downward luminosity. Created by the divergence of two curves that flow along and around the product.

Solid walnut, rock maple, oak or black stained marries perfectly with the hand polished champagne anodised elements.

CETO CIRCLET CHANDELIER

Ceto Circlet captures the variation and rippling of the surface of the ocean. Each piece is mouth blown, reflecting a distinct pattern that emits a delicate luminosity, evoking the presence of the sea and its undulating movements. The Ceto Circlet collection features a circular band suspended in a horizontal plane, to which several Ceto lamps are affixed.

Each glass shade is mouth blown in Australia and hand assembled in our Melbourne based studio. This sculptural luminaire is available in a selection of glass finishes combined with a highly refined machined aluminium body and circular band available in a black and champagne anodised finish.

The Ceto Circlet is available in three sizes.

NEBULAE VERTICAL CHANDELIER

The Nebulae collection takes its name from the natural phenomena of interstellar clouds and their dynamic layered lighting effects. The geometric machined forms coupled with the fluid glass discs creates a balance between the elements. Designed for use in larger open spaces, working in modular configurations, the Nebulae Vertical Chandelier Collection is inspired by the diffusion of natural light.

Available in several configurations (including a Horizontal Chandelier), several glass finishes, the Nebulae Vertical Chandelier is both dynamic and sculptural in its linear form.

NEBULAE WALL LIGHT

The Nebulae collection takes its name from the natural phenomena of interstellar clouds and their dynamic layered lighting effects. The geometric machined forms coupled with the fluid glass discs creates a balance between the elements. The Nebulae Wall Light is a statement in any space and supplies a beautiful adjustable light level. The wall light can be specified with a single glass disc or layered with an additional disc to create expansive light dispersion options.

The body is manufactured from machined aluminium white champagne or black anodised. Nebulae's discs come in a fluted clear, bubbled black, or white pearl glass, in singular or doubled.

HEMERA DESK LAMP

Like the brutalist architecture of 60 years ago that it references, the Hemera Desk Lamp is powerful in its simplicity of form. Designed for the New Volumes™ collection, the two solid circular volumes intersect with no overtly visible light source, creating a striking desktop monolith and a lighting device of refined functionality.

IMAGE /

ORA DESK LAMP

The Ora collection reflects a desire for purity and honesty in materials and manufacturing.

Completely precision-milled from aluminium and available in either brushed anodised black, white champagne or grey, the Ora Desk Lamp features an adjustable shade thanks to a clever magnetic joint. This allows the user to interact with a shade that can fully orbit in 360° and tilt-adjust in numerous positions.

IMAGE /

SILHOUETTE PENDANT

Silhouette’s reductive fluted form is inspired by the architype of a torch, where the materiality defines the luminance. The Silhouette Pendant offers flexibility in function and materiality. The gently fluted shade is available in glass or aluminium, designed to be used individually or in clusters, in both residential and contract settings.

Each glass light is mouth blown in Australia and has a natural variation which is only present in mouth blown glass. To create a chandelier, simply choose the number in your hanging and then select the colour mix.

SILHOUETTE WALL LIGHT

Silhouette’s reductive fluted form is inspired by the architype of a torch, where the materiality defines the luminance. Designed to provide versatile solutions for interior settings, the Silhouette Wall Light combines the form of the Silhouette Pendant, with its library of beautiful and varied material options, with a minimalist, low-profile mounting bracket.

Silhouette Wall Light can be mounted at any angle and in clusters, providing up-light, side-light and down-light options.

IMAGE /

SILHOUETTE WALL LIGHT CAN BE ORIENTED AS EITHER AN UP-LIGHT OR DOWN-LIGHT SCONCE

IMAGE /

SILHOUETTE WALL LIGHT IN WHITE AND BLACK MOUTH BLOWN GLASS

OAK PENDANT

Oak is a sustainably sourced timber pendant light which emits a delicate luminance. Each Oak Pendant Light shade is hand crafted and defined by the grain of the oak selected. The body of the light is accentuated by the intersecting hole which defines its unique form.

The pendant is available in two sizes and three finishes.

FURNITURE 03

DWELL LOUNGE

Dwell is a sophisticated modular lounging collection designed for flexibility, comfort, and architectural simplicity. Built on a refined rail system, Dwell offers a sculptural foundation for both relaxed and formal environments, enabling a wide range of configurations for public, commercial and residential settings.

Every element has been crafted to foster connection and conversation, while also offering the flexibility to support moments of quiet focus and individual work.

IMAGE /

SOFT AND GENEROUS SEAT CUSHIONS CREATE AN OTTOMAN WITH A GROUNDED STANCE AND A QUIET PRESCENCE

IMAGE /

DETAILS OF OTTOMAN AND DIVIDER CUSHION UPHOLSTERED IN LEATHER

ROOK STOOL

Rook is a considered collection of stools, subtly inspired by the decorative forms of traditional chess pieces. The diverging timber uprights interplay with the horizontal footrest, encapsulating and supporting the element. The steel skeleton within the solid timber form, minimises the overall silhouette, celebrating the beautiful marriage of natural solid timber and Australian craftsmanship.

The gently radiused curves of the seat and leg provide a consistent element throughout the range. Presented in solid walnut, white oak and blackened oak with base and footrest finished to textured black. Made and assembled in Australia and available in three heights to suit a range of indoor contexts.

IMAGE /

ROOK IS AVAILABLE IN THREE SIZES AND VARIOUS TIMBER FINISH

IMAGE /

DETAIL OF ROOK JOINERY

PLACE LOUNGE

Place offers the most functional, modular platform to connect, experience and create. At the heart of the collection is the desire to bring people together. Place Lounge features the unique ability to connect modules by dropping and zipping them together. The simple connecting system allows any module to connect to form a wide variety of configurations, and then easily disconnect to reconfigure as space requirements evolve.

The Place Lounge’s distinctly detailed set of modular configurations are designed to complement any given space, enabling a creative environment which is smart, agile and intuitive.

HEARTH CLASSIC LOUNGE

Hearth Classic is the new heart of your home, a lounging system designed for flexible living. Inspired by our popular Place collection, Hearth features generous proportions perfect for lounging while its modular nature allows it to fit and complement any space.

Reflected in the oversized French seams and looseness in the rear cushion, Hearth is soft and welcoming. The spacious proportions of the seating surface combined with the soft arms and feather cushions create the perfect space to relax. Hearth's refined form, opulent proportions and superbly crafted structure represents a new stylish and intelligent lounging system for your space.

ADAPT LOUNGE

Flexible, inviting and productive, the Adapt collection of lounges and accessories are designed to evolve with the dynamic needs of today's workspace. The clean lines and subtle surfaces of the Adapt Lounge bring a softness and sense of familiarity into the workspace. Designed to sit alone or combine in module configurations - arms, backs, screens, desks and tables can be added simply and easily.

A truly modular system with functionality at its core, Adapt caters for offices, receptions, universities, airports and hospitality spaces.

ADAPT SOFT

Flexible, inviting and productive, the Adapt collection of lounges and accessories are designed to evolve with the dynamic needs of today's workspace. The new Adapt Soft brings a more relaxed aesthetic combined with a residential level of comfort. The non-fixed cushions are made from a foam/feather composite paired with a quilted feather overlay to the seat. The clean lines and subtle surfaces of the Adapt bring a softness and sense of the familiar into the workspace. Designed to sit alone or combine in module configurations - arms, backs, desks and tables can be added simply and easily.

Adapt Soft is available in the full range of low-back lounge configurations, when that extra level of comfort and luxury is required.

IMAGE /

ADAPT SOFT FEATURES PLUSHER CUSHIONS TO CREATE A SOFTER, MORE COMFORTABLE EXPERIENCE

ADAPT SIDE TABLE

Flexible, inviting and productive, the Adapt collection of lounges and accessories are designed to evolve with the dynamic needs of today's workspace. Designed to interconnect between Adapt Lounges and Ottomans or to be used as stand-alone tables, the Adapt Side Table is a functional table to complement the Adapt range. The table is available with the option to connect, suspend or standalone to allow for maximum flexibility in creating your space.

Featuring a black or white powder coated mild steel edge, the table top surface is available in black and white laminate or black mirror.

IMAGE /

THE ADAPT SIDE TABLE FITS SEAMLESSLY WITH THE ADAPT LOUNGES TO CREATE FUNCTIONAL, VERSATILE SETTINGS

ADAPT PIVOTING TABLE

Flexible, inviting and productive, the Adapt collection of lounges and accessories are designed to evolve with the dynamic needs of today’s workspace. Designed to interconnect with the Adapt Lounges and Ottomans, the Adapt Pivoting Table can be easily installed on the underside of the lounge to provide a working table-top surface, perfect for laptop use. The table can pivot horizontally allowing the user to position the table as desired, as well as providing easy ingress/egress.

For effortless application the Pivoting Table can be mounted on any Adapt Lounge module variation, either on the left- or right-hand side or specific locations along the longer lounges.

IMAGE /

NOON LOUNGE

Noon is a modular collection of upholstered products which softly arc at the edges. Noon’s arm allows the cushion to flow over the arc, creating an extra level of comfort and softness to the product. Noon Lounge softly arcs, evoking a relaxed harmony. The lounge’s arm allows the cushion to flow over the arc, creating an extra level of comfort and softness to the product.

Tension is created in the product between the stitching detail on the inner and outer surface which run in parallel, framing and outlining the design. The collection is designed specifically for residential spaces with a commercial cross over.

NOON TABLE

Bringing lightness and balance to a collection of rich, cohesive materials and graphic in nature, the Noon Tables offer striking material combinations confined within an outer ring. The top is contained within half-milled legs creating a tension and lightness between the surfaces.

The Noon Tables are available in two sizes and a plethora of top surfaces including tri-cut material inlays. The Tri-Cut configuration is referenced throughout the Noon Collection, showcasing different finishes seamlessly in unity.

NOON IS AVAILABLE AS A COFFEE OR SIDE TABLE IN A VARIETY OF FINISHES

TAILORED LOUNGE

Tailored is a modular collection of upholstered products inspired by the stitching detail of fine suiting. The Tailored Lounge is an elegant seating solution designed to facilitate interactions and communication between people.

Tailored is available in a variety of standard configurations with custom sizes available on request.

TAILORED HIGH-BACK LOUNGE

Tailored is a modular collection of upholstered products inspired by the stitching detail of fine suiting. Tailored High-Back is designed specifically for office and open spaces. It is designed to facilitate meetings, interactions and communication between people while also providing a space for quiet work and conversations.

The Tailored High-Back is available in a variety of standard configurations with custom sizes available on request.

DUET STOOL

The Duet Stool represents the harmony and beauty of two. The Duet Stool is a blend of inviting timber or upholstery seat with a gracefully slender base. The gently radiused curve of the seat provides a consistent element throughout the range. It is available in either a solid white oak or upholstered top.

Available in three heights to suit a range of different contexts, the bases can be powder coated to any of our house colours.

DUET IS AVAILABLE IN MANY FRAME AND SEAT FINISHES TO SUIT MANY ENVIRONMENTS

HALF FULL STOOL

Half Full is a sustainably sourced oak timber collection of products. The central feature of the range is the use of a half turned leg, which gives the tables, benches and stools their unique appearance and playful nature. The name Half Full refers as much to optimism and the term ‘glass half full’, as to the common half leg that supports each product. An exposed tennon joint is also a common characteristic of the collection and references the handcrafted nature of the products.

The stool is made from oak and available in a number of standard sizes with custom sizes available on request.

HALF TURNED LEG DETAIL GIVES A PLAYFUL, UNIQUE APPEARANCE

FLINT TABLE

The Flint Table is inspired by the principles of a lever, with a design that explores the idea of supporting a table using its own established weight.

The Flint Table is available in an indoor and an outdoor range. The tabletop is available in sustainably sourced Spotted Gum or Accoya for indoor and outdoor use. The zinc plated steel legs are available in the full range of powder coat colours.
